

Statewide Interoperability Executive Committee (SIEC)

State Forestry Interagency Radio Console Interoperability & High Level Connectivity Upgrade

Emilie Sundie

PSIC Project Manager

Agenda

- Background
- Presentation by Dale Brown
- Questions and Workgroup Summary
- Additional Questions and Discussion
- Next Steps, Possible Action

Background

- During the Call to the Public section of the March 16th SIEC Meeting, Committee Member Scott Tillman requested a presentation by Forestry on its plans for AIRS.
- Forestry submitted a Project Investment Justification (PIJ) to GITA requesting approval for the project, per oversight requirements for State Agency IT projects
- GITA approved the Project, pending approval of the SIEC

Background (continued)

- Forestry requested SIEC action
- GITA-PSIC, with concurrence of the SIEC co-chairs, referred the project to the SIEC Workgroups
- SIEC Co-Chair Paul Wilson requested that Forestry and the Workgroups address a preliminary set of questions
- A Workgroup meeting was convened on Monday, May 10th (Summary provided in the meeting materials)

Presentation by Dale Brown
State Communications Officer for the
Arizona State Forestry Division

Preliminary Questions

- DPS input regarding this proposal
- Whether this use of the AIRS network would be interruptive for other users
- How the proposed solution would improve or hinder the way that the AIRS network is monitored, dispatched and used
- Other impacts, such as those on system coordination, user training, and interoperability exercises

Next Steps

Possible Action
